Conditions of apprenticeship for Special Class Apprentices selected under Regulation 1 (2) in Part I of the Regulations.

1. Candidates selected for appointment as Special Class Apprentices under Regulation 13 in Part II will be liable to undergo practical and theoretical training for 6 years in the first instance under an indenture binding them to serve on the State-managed Railways on the completion of their training if their services are required. The continuance of apprenticeship from year to year will depend on the satisfactory reports being received from the authorities under whom the apprentice may be working. If at any time during his apprenticeship, an apprentice does not satisfy the superior authorities that he is making good progress, he will be liable to be discharged from his apprenticeship.

NOTE.—The Government of India may at their discretion alter or modify the periods and courses of training.

2. The practical and theoretical training referred to above will be given in a railway workshop for the first four years of their apprenticeship. The apprentices will be granted a stipend of Rs. 75 per mensem during the first three years and Rs. 100 per mensem in the fourth year. During the first three years the apprentices will be required to undergo training in four periods of nine months each—six months in the shops followed by three months in the technical school—and will be examined at the end of each session. If unsuccessful at any of these examinations, they will be discharged from their apprenticeship. During the fourth year they will undergo only practical training and prepare for the examination for Associate Membership of the Institute of Civil or Mechanical Engineers.

NOTE —Except as provided for in rule 5 (*b*) below, in all cases of discharge from apprenticeship a week's notice will be given.

3. Before the completion of the fourth year of training referred to in rule 2 above, the apprentices will be listed in order of merit on the results of the examinations held and the reports on the apprentices received during the period of apprenticeship. Apprentices to the number of vacancies for which the selection was made in the first instance will be selected in direct order of merit for further training for two years (see rule 4 below) provided they have attained the qualifying standard, and the others will be discharged from their apprenticeship.

Provided that if the actual number of apprentices selected against the vacancies under regulation 13 to redress communal inequalities do not become eligible for selection under this rule, the deficiency will be made good by direct selection so as to comply with the Home Department Resolution No. F.-14/17-B/33-Ests., dated 4th July 1934; the number to be selected according to merit being reduced by the same number. In no case, however, will an apprentice be selected for further training if he has not attained the qualifying standard.

NOTE.—Candidates will be considered to have attained the qualifying standard if they obtain an average of 35 per cent. marks with a minimum of 30 per cent. in any one subject for the first 3 sessions and an average of 45 per cent. marks with a minimum of 40 per cent. in any one subject for the 4th or the final session of their first three years' training. Only those apprentices who obtain an aggregate of 50 per cent. marks or more in all the examinations held up to the end of the 4th year of their training will be considered to have qualified so as to be eligible for selection for further 2 years' training in the United Kingdom subject to the number of vacancies against which they were originally recruited.

4. Apprentices selected under Rule 3 will be sent to the United Kingdom to undergo a further period of training for two years in a selected Locomotive or Carriage and Wagon Workshop, under conditions existing for apprentices and improvers, three months of the time being spent in the Drawing Office and three months in the correspondence or accounts sections. In all cases, the apprentices will be required to attend, after working hours, a

technical college or special lectures on engineering subjects and before returning to India must qualify for Associate Membership of the Institution of Civil or Mechanical Engineers. During this period of training in the United Kingdom they will be granted a stipend of £250 per annum. They will be granted a free 2nd class passage to the United Kingdom, and, during the period of voyage to the United Kingdom, their stipend of Rs. 100 per mensem will be continued.

NOTE 1.—While in the United Kingdom apprentices will be under the supervision and control of the High Commissioner for India.

NOTE 2.—Any fee or premium, which may be required, in the opinion of the High Commissioner for India, to secure adequate training, will be paid by Government.

5. (*a*) On the successful termination of apprenticeship in the United Kingdom apprentices will be granted a free first class passage to India. The stipend of £250 will be continued during the period of voyage.

(*b*) Unsuccessful apprentices will be discharged from their apprenticeship one month's notice of discharge being given along with the intimation that the apprentice has been unsuccessful. They may be granted a free second class passage back to India provided that they embark for India within a period of 3 months from the date of intimation that they have been unsuccessful.

6. On return to India successful apprentices will be appointed on probation for three years on a commencing pay of Rs. 350 per mensem and posted to the Transportation (Power) Department on State-managed Railways for the period of their probation. At the end of their probationary period they will be required to undergo a departmental examination which will include Accounting and Estimating General and Subsidiary rules, Factories Act, Workmen's Compensation Act, ability to handle labour and general application to work or works on which each officer is engaged while on probation. If retained in service thereafter they will be employed in the Mechanical Engineering or Transportation (Power) Department at the discretion of the Government of India.

7. Pay as probationer will commence from the date of landing in India on return from the United Kingdom after completion of training. Service for increment will also count from the same date.

NOTE 1.—The retention in service of the probationers and the grant of annual increments are subject to satisfactory reports on their work being received at the end of each year of probation.

NOTE 2.—Service as probationer may be terminated on 3 months' notice on either side.

3. The candidate's height will be measured as follows :—

He will remove his shoes and be placed against the standard with his feet together, and the weight thrown on the heels and not on the toes or outer sides of the feet. He will stand erect without rigidity, and with the heels, calves, buttocks and shoulders touching the standard ; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be recorded in inches and parts of an inch to quarters. No fixed limit of height is enforced.

4. The candidate's chest will be measured as follows :—

He will be made to stand erect with his feet together, and to raise his arms over his head. The tape will be so adjusted round the chest that its upper edge touches the inferior angles of the shoulder blades behind, and its lower edge the upper part of the nipples in front. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to take a deep inspiration several times, and the maximum expansion of the chest will be carefully noted, and the minimum and maximum will then be recorded in inches, 33-35, 34-36½, etc. In recording the measurements, fractions of less than ½ inch should not be noted.

5. The candidate will also be weighed and his weight recorded in pounds. Fractions of a pound should not be noted.

6. The candidate's eye-sight will be tested in accordance with the following rules. The results of each test will be recorded :—

(*i*) *General.*—The candidate's eyes will be submitted to a general examination directed to the detection of any disease or abnormality. The candidate will be rejected if he suffers from any morbid conditions of the eyes, eyelids or contiguous structures, of such a sort as to render, or to be likely at a future date to render, him unfit for service. No candidate will be accepted whose standard of vision does not come up to the specified requirements without the use of contact glasses.

(*ii*) *Visual Acuity.*—The candidate will be examined, with the apparatus and according to the methods prescribed by the Railway Board's Standing Advisory Committee of Medical Officers, to determine his acuity of vision, and the examination will include two tests, one for distant and the other for near vision. Each eye will be examined separately. No candidate will be accepted whose Visual Acuity falls below the following standards :—

	The one eye.	The other eye.
Distant vision—		
without glasses	6/12	6/18
corrected with glasses	6/6	6/9
Manifest Hyperopia	1·5	1·5
Near vision—		
with or without glasses	0·6	0·6

(*iii*) *Colour Perception.*—The candidate will be examined for colour knowledge with the apparatus and according to the methods prescribed by the Railway Board's Standing Advisory Committee of Medical Officers. Any defect of colour perception will be a cause for rejection of the candidate.

(*iv*) *Night Blindness.*—The candidate's Night Vision will be tested, with the apparatus and according to the methods prescribed by the Railway Board's Standing Advisory Committee of Medical Officers, to ascertain whether or not he suffers from night blindness. The candidate who under the conditions of the ordinary Test for Visual Acuity has 6/6 Vision with both eyes open, with or without glasses will be rejected if, under the conditions of the Night Blindness Test, his vision with both eyes open, with or without glasses, falls below 6/24.

(*v*) *Field of Vision.*—The field of vision of the candidate's eyes will be examined with the apparatus and according to the methods prescribed by the Railway Board's Standing Advisory Committee of Medical Officers. Any defect will be a cause for rejection of the candidate.

Note.—Candidates for Ordnance and Clothing Factories are not required to satisfy the requirements as to Vision contained in this rule but are required to satisfy the requirements contained in the General Regulations for the Medical Examination of candidates for the service of Government in India. If, therefore, a candidate does not satisfy this rule, it should be stated whether his vision satisfies the requirements of the General Regulations.

7. The urine (passed in the presence of the examiner) should be examined and the result recorded.

8. The following additional points should be observed :—

(*a*) that the candidate's hearing in each ear is good and that there is no sign of disease of the ear ;

(*b*) that his speech is without impediment ;

(*c*) that his teeth are in good order and that he is provided with dentures where necessary for effective mastication (well filled teeth will be considered sound) ;

(*d*) that his chest is well formed, and his chest expansion sufficient ; and that his heart and lungs are sound ; and that his blood pressure is within normal limits ;

(*e*) that there is no evidence of any abdominal disease ;

(*f*) that he is not ruptured ;

(*g*) that he does not suffer from a severe degree of hydrocele, varicocele, varicose veins or piles ;

(*h*) that his limbs, hands and feet are well formed and developed, and that there is free and perfect motion of all his joints ;

(*i*) that he does not suffer from any inveterate skin disease ;

(*j*) that there is no congenital malformation or defect ;

(*k*) that he does not bear traces of acute or chronic disease pointing to an impaired constitution ; and

(*l*) that he bears marks of efficient vaccination.

When any defect is found, it must be noted in the certificate and the medical examiners should state their opinion as to whether or not it is likely to interefere with the efficient performance of the duties which will be required of the candidate. If the condition is remediable by operation it should be so stated.
